General Fund - Projected Fund Balance 2019-2020

The District has an undesignated fund balance projection of \$30.7 million. This is equal to approximately 4 months operating expenditures net of recapture and represents adequate undesignated reserves to meet the challenges it could face given unfavorable market conditions or during an active hurricane season. The district is currently in a stable enrollment environment and will continue to try to make decisions to protect an adequate fund balance in the future.

Section I - General Fund

GENERAL FUND

The general fund is the District's primary operating fund. It accounts for all financial transactions not properly included in other funds. The principal sources of revenue include local property taxes and state aid. Expenditures include all costs associated with the daily operations of the District except for specific programs funded by the federal or state government, food service, debt service, and capital projects. The fund balance of the general fund is controlled by and retained for the use of the local education agency. The general fund utilizes the modified accrual basis of accounting. The local governing body has wide discretion in the use of funds as provided by law.

Section II - Debt Service Fund

DEBT SERVICE FUND

The debt service fund accounts for payments of principal, interest, and related fees on the district's general obligation bonds. A separate bank account must be kept for this fund. Under Texas law, only these debt service payments can be charged to this fund. Revenue is received from a designated allocation of the property tax rate.

Section III - Food Service Fund

FOOD SERVICE FUND (National School Breakfast and Lunch Program)

The food service fund is to be used for programs using federal reimbursement revenues originating from the United States Department of Agriculture (USDA). This fund is considered a Special Revenue Fund since it meets the following criteria:

- * User fees are charged to supplement the National School Lunch Program (NSLP) reimbursement -- i.e., students are charged for the meals.
- * The general fund subsidizes the food service fund for all unpaid student accounts as of year end.

This fund may have a fund balance not to exceed three months of operations, and fund balances are to be used exclusively for allowable child nutrition program purposes.

Section IV - Capital Projects Funds

CAPITAL PROJECTS FUNDS

A capital projects fund is a governmental fund that must be used to account, on a project basis, for projects financed by the proceeds from bond issues, or for capital projects otherwise mandated to be accounted for in the fund. The Capital Projects Fund utilizes the modified accrual basis of accounting. Capital Projects Fund budgets do not require annual Board of Trustees adoption and are typically approved by the governing body on a project-length basis. However, regardless of the legal requirements, the district includes these funds as part of the annual financial reports and the Board of Trustees are kept apprised of their status on a regular basis during the fiscal year.

Section V - Other Special Revenue Funds

OTHER SPECIAL REVENUE FUNDS

Special revenue funds are governmental funds used to account for the proceeds of specific revenue sources that are legally restricted to expenditures for specified purposes. These funds utilize the modified accrual basis of accounting. Other special revenue fund budgets (except for the food service fund) do not require Board of Trustees adoption or approval for routine budget amendments during the year. However, regardless of the legal requirements, these budgets are included as managerial level budgets.

Dear Sirs:

As required by Texas Tax Code Sec. 26.01(e), we have prepared an estimate of taxable value for the above taxing jurisdiction for 2019. While this estimate is based on information currently available to us, some of the data needed for accuracy is not yet available. For example, in the area of business and industrial personal property, the extended date for property owners to file their annual renditions is May 1, and some will delay their filing until the good cause deadline of May 16.

While we have taken our best estimate of potential hearing loss into account, protests for 2019 are in the process of being received and reductions made in the ARB protest hearing process during the next several months could cause a further reduction in value. Also, if fewer protests are filed, your value could possibly be higher.

Your final taxable value will also be impacted by late-filed exemption applications, late applications for productivity valuation, correction motions under Tax Code Sec. 25.25, and possible post-ARB appeals through binding arbitration, appeals to district court, or appeals to the State Office of Administrative Hearings.

Given these limitations, the estimated 2019 taxable value for the taxing unit identified above is:

\$10,753,997,034

The enclosed summary report gives a breakdown of this estimate by property category.

Please do not hesitate to contact your HCAD jurisdiction coordinator or my office if you have questions regarding this estimate or other matters affecting appraisal district operations.

Sincerely.

Roland Altinger Chief Appraiser
