

La Porte ISD Transportation Department provides two tools that assist with the transportation needs of your child, **Versatrans e-Link** and **Versatrans MyStop**.

Versatrans e-Link is an online student transportation information portal that allows parents to stay informed about where their children should wait for the bus, bus number and arrival times. This website is typically used at the beginning of the school year or when new students arrive to the district and are requiring bus transportation.

*Note: e-Link is only available from a website (<https://bus.lpsid.org>) **no** app is currently available for phones and/or tablets.*

A username (student id) and password will be required to access e-Link. Use the following logon credentials for your child:

- Username (*Student ID*):
- Password: (*Your student's DOB mmddyyyy*):

If you are logging in for the first time, the following information will be required:

A screenshot of a web browser window showing the 'Versatrans e-Link' website. The browser address bar shows 'https://bus.lpsid.org/elinkep/Administration/SetPasswordRetri'. The website header includes the 'tyler school solutions' logo and navigation links for 'Home', 'Students', 'Options', and 'Help'. A 'Logout' link is visible in the top right. The main content area is titled 'Setup Password Retrieval:' and contains a form with the following fields: 'Username:' with the value '566599', 'Email address:', 'Confirm Email address:', 'Choose Security Question:' (a dropdown menu), and 'Answer Security Question:'. At the bottom of the form are 'Save' and 'Cancel' buttons.

The second application is **Versatrans MyStop**. MyStop is a phone/tablet app that provides live GPS information using smartphones, tablets or computers to view the current location of your child's bus on a route. My Stop also provides the bus's estimated time of arrival (ETA) at your child's bus stop. Additionally, My Stop will allow the transportation department to text parents or guardians regarding route modifications, bus changes and/or delays. The Versatrans My Stop app is available for download for iPhone, Android phones, and tablets.

## App Download

After downloading the Versatrans app onto your phone or tablet, you will need to select “La Porte Independent School District (TX)”. A username (student id) and password will be required to use the app. Use the following logon credentials for your child:

- Username (*Student ID*):
- Password: (*Your student’s DOB mmddyyyy*):

Once logged into the app, a city map of La Porte will be displayed on your phone and/or tablet. Your child’s name will appear above the map in the upper left hand corner. By touching the child’s name it will give you a list of all your children that attend LPISD.

The map uses GPS to show your child’s bus coming to your stop so you can have your child ready when it arrives. It will also show the bus coming for drop off after school. You will be able to see if the bus has already been to your bus stop as well.

Keep in mind, My Stop will only provide GPS information when the bus is running a scheduled route. If the bus is not running, you will see a message near the bottom of the screen saying, “No active routes found”.

In addition to GPS information, MyStop will also provide the following when a student utilizes his/her student badge when entering or exiting a school bus:

- The **location** (campus) a child boards a school bus.
- The **location** (bus stop/address) a child exits a school bus.
- The **time** a child boards and exits a school bus.
- What **bus** number a child is using.

Helpful Hints:

The notification feature on phones/tablets should be set to preview whether it is locked or unlocked.

If you have any questions or concerns, please contact us at **(281) 604-7174**

Thank you,

*La Porte ISD Transportation Department*
